

Contents

Introduction	9
The purpose of the book	9
The structure of the book	10
Chapter 1	
State of the art	13
1.1. Corpus linguistics	13
1.2. Definition of <i>corpus</i>	15
1.3. Corpus composition, annotation, size and representativeness	17
1.4. Diachronic corpora of English	21
1.4.1. Unannotated diachronic corpora of English	22
1.4.2. Annotated diachronic corpora of English	28
1.4.3. Other corpora	34
1.5. Parataxis versus hypotaxis	35
1.6. What developed first in Indo-European: parataxis or hypotaxis?	38
1.7. What is para-hypotaxis?	41
1.8. The problem of modern punctuation in mediaeval texts	43
1.9. Main or dependent Old English clauses?	44
1.10. Ambiguity and some techniques of resolving it	47
1.11. Introduction to the following chapters	54
Chapter 2	
Para-hypotaxis	57
2.1. The way we see para-hypotaxis	57
2.2. Static Intrinsic Para-Hypotaxis	60
2.3. Mobile Intrinsic Para-Hypotaxis	64
2.4. Our annotated corpus taking PH clauses into account	70

Chapter 3

Static Intrinsic Para-Hypotaxis in the <i>Anglo-Saxon Chronicle</i>	75
3.1. SIPH-taxis: $PH-siph\{[=x/[con^*]$ clauses	76
3.1.1. $PH-siph\{[cj=x/[cj=con^*]$ clauses	81
3.1.2. $PH-siph\{[0=x/[0=con^*]$ clauses	82
3.1.3. The ambivalence corridor for the ASC A $PH-siph\{[=x/[con^*]$ clauses and their sequence variants	85
3.1.4. The ambivalence corridor for the ASC E $PH-siph\{[=x/[con^*]$ clauses and their sequence variants	87
3.2. SIPH-taxis: $PH-siph\{[=s/[con^*]$ clauses	88
3.2.1. $PH-siph\{[cj=s/[cj=con^*]$ clauses	93
3.2.2. $PH-siph\{[0=s/[0=con^*]$ clauses	94
3.2.3. The ambivalence corridor for the ASC A $PH-siph\{[=s/[con^*]$ clauses and their sequence variants	96
3.2.4. The ambivalence corridor for the ASC E $PH-siph\{[=s/[con^*]$ clauses and their sequence variants	98
3.3. SIPH-taxis: $PH-siph\{[=io/[con^*]$ clauses	99
3.3.1. $PH-siph\{[cj=io/[cj=con^*]$ clauses	101
3.3.2. $PH-siph\{[0=io/[0=con^*]$ clauses	101
3.3.3. The ambivalence corridor for the ASC A $PH-siph\{[=io/[con^*]$ clauses	102
3.3.4. The ambivalence corridor for the ASC E $PH-siph\{[=io/[con^*]$ clauses	103
3.4. SIPH-taxis: $PH-siph\{[=do/[con^*]$ clauses	104
3.4.1. $PH-siph\{[cj=do/[cj=con^*]$ clauses	108
3.4.2. $PH-siph\{[0=do/[0=con^*]$ clauses	108
3.4.3. The ambivalence corridor for the ASC A $PH-siph\{[=do/[con^*]$ clauses	108
3.4.4. The ambivalence corridor for the ASC E $PH-siph\{[=do/[con^*]$ clauses	109
3.5. SIPH-taxis: $PH-siph\{[=0/[0^*]$ clauses	110
3.5.1. $PH-siph\{[=0/[0^*]$ from <i>s</i> clauses	111
3.5.2. $PH-siph\{[=0/[0^*]$ from <i>x</i> clauses	118
3.5.3. $PH-siph\{[=0/[0^*]$ from <i>io</i> clauses	119
3.5.4. $PH-siph\{[=0/[0^*]$ from <i>do</i> clauses	119
3.5.5. SIPH-taxis: $PH-siph\{[cj=0/[cj=0^*]$ and $PH-siph\{[0=0/[0=0^*]$ clauses	120
3.5.6. $PH-siph\{[cj=0/[cj=0^*]$ from <i>x</i> clauses	120
3.5.7. $PH-siph\{[0=0/[0=0^*]$ from <i>x</i> clauses	122
3.5.8. $PH-siph\{[cj=0/[cj=0^*]$ from <i>s</i> clauses	122
3.5.9. $PH-siph\{[0=0/[0=0^*]$ from <i>s</i> clauses	123
3.5.10. $PH-siph\{[cj=0/[cj=0^*]$ from <i>io</i> clauses	124
3.5.11. $PH-siph\{[0=0/[0=0^*]$ from <i>io</i> clauses	125
3.5.12. $PH-siph\{[cj=0/[cj=0^*]$ from <i>do</i> clauses	125
3.5.13. $PH-siph\{[0=0/[0=0^*]$ from <i>do</i> clauses	125
3.5.14. The ambivalence corridor for the ASC A $PH-siph\{[=0/[0^*]$ clauses and their sequence variants	126
3.5.15. The ambivalence corridor for the ASC E $PH-siph\{[=0/[0^*]$ clauses and their sequence variants	127
3.6. The maximum range of the ambivalence corridor produced by the ASC A SIPH clauses	128

3.7. The maximum range of the ambivalence corridor produced by the ASC E SIPH clauses 130

Chapter 4

Mobile Intrinsic Para-Hypotaxis in the *Anglo-Saxon Chronicle* 135

4.1. MIPH-taxis: $PH\text{-}miph\{=x\}/[con^*$ clauses 136

4.1.1. $PH\text{-}miph\{cj=x\}/[cj=con^*$ clauses 142

4.1.2. $PH\text{-}miph\{0=x\}/[0=con^*$ clauses 143

4.1.3. The ambivalence corridor for the ASC A $PH\text{-}miph\{=x\}/[con^*$ clauses and their sequence variants 145

4.1.4. The ambivalence corridor for the ASC E $PH\text{-}miph\{=x\}/[con^*$ clauses and their sequence variants 146

4.2. MIPH-taxis: $PH\text{-}miph\{=s\}/[con^*$ clauses 148

4.2.1. $PH\text{-}miph\{cj=s\}/[cj=con^*$ clauses 150

4.2.2. $PH\text{-}miph\{0=s\}/[0=con^*$ clauses 150

4.2.3. The ambivalence corridor for the ASC A $PH\text{-}miph\{=s\}/[con^*$ clauses 152

4.2.4. The ambivalence corridor for the ASC E $PH\text{-}miph\{=s\}/[con^*$ clauses and their sequence variants 153

4.3. MIPH-taxis: $PH\text{-}miph\{=io\}/[con^*$ clauses 154

4.3.1. $PH\text{-}miph\{cj=io\}/[cj=con^*$ clauses 154

4.3.2. $PH\text{-}miph\{0=io\}/[0=con^*$ clauses 155

4.4. MIPH-taxis: $PH\text{-}miph\{=do\}/[con^*$ clauses 155

4.4.1. $PH\text{-}miph\{cj=do\}/[cj=con^*$ clauses 159

4.4.2. $PH\text{-}miph\{0=do\}/[0=con^*$ clauses 160

4.4.3. The ambivalence corridor for the ASC A $PH\text{-}miph\{=do\}/[con^*$ clauses and their sequence variants 163

4.4.4. The ambivalence corridor for the ASC E $PH\text{-}miph\{=do\}/[con^*$ clauses and their sequence variants 164

4.5. MIPH-taxis: $PH\text{-}miph\{=0\}/[0^*$ clauses 166

4.5.1. $PH\text{-}miph\{=0\}/[0^*$ from *x* clauses 166

4.5.2. $PH\text{-}miph\{=0\}/[0^*$ from *s* clauses 168

4.5.3. MIPH-taxis: $PH\text{-}miph\{=0\}/[0^*$ from *io* 168

4.5.4. MIPH-taxis: $PH\text{-}miph\{=[0\}/[0^*$ from *do* 169

4.5.5. MIPH-taxis: $PH\text{-}miph\{cj=0\}/[cj=0^*$ and $PH\text{-}miph\{0=0\}/[0=0^*$ clauses 169

4.5.6. $PH\text{-}miph\{cj=0\}/[cj=0^*$ from *x* clauses 170

4.5.7. $PH\text{-}miph\{cj=0\}/[cj=0^*$ from *s* clauses 171

4.5.8. $PH\text{-}miph\{cj=0\}/[cj=0^*$ from *io* clauses 172

4.5.9. $PH\text{-}miph\{cj=0\}/[cj=0^*$ from *do* clauses 172

4.5.10. $PH\text{-}miph\{0=0\}/[0=0^*$ from *x* clauses 173

4.5.11. $PH\text{-}miph\{0=0\}/[0=0^*$ from *s* clauses 174

4.5.12. $PH\text{-}miph\{0=0\}/[0=0^*$ from *io* clauses 174

4.5.13. $PH\text{-}miph\{0=0\}/[0=0^*$ from *do* clauses 175

4.5.14. The ambivalence corridor for the ASC A $PH\text{-}miph\{=0\}/[0^*$ clauses 177

4.5.15. The ambivalence corridor for the ASC E $PH\text{-}miph\{=0\}/[0^*$ clauses and their sequence variants 178

4.6.	The maximum range of the ambivalence corridor produced by the ASC A MIPH clauses	179
4.7.	The maximum range of the ambivalence corridor produced by the ASC E MIPH clauses	181
Chapter 5		
Extended-Para-Hypotaxis in the <i>Anglo-Saxon Chronicle</i> and implications for further study		187
5.1.	EPH clauses	187
5.2.	Uninterrupted EPH doublets	189
5.3.	Uninterrupted quasi-EPH doublets	196
5.4.	Interrupted EPH doublets	199
5.5.	Interrupted quasi-EPH doublets	200
Chapter 6		
Conclusions		203
6.1.	Introduction	203
6.2.	Calibration of the data for the ASC A — proportions	205
6.3.	Calibration of the data for the ASC E — proportions	209
6.4.	Comparison of the ASC A and the ASC E after calibration	212
6.5.	Final conclusions, remarks and implications	217
