Outline of the research	11
I. Biological terms used in present work in anthropological context	20
I.A. Adaptive radiation	21
I.B. Reproductive isolation.....	22
I.C. Speciation.....	22
I.C.1. <i>Allopatric (geographic) speciation</i>	23
I.C.2. <i>Peripatric (mostly geographic) speciation</i>	24
I.C.3. <i>Parapatric (somewhat geographic) speciation</i>	24
I.C.4. <i>Sympatric (non-geographic) speciation</i>	24
I.D. Gradual speciation	25
I.E. Punctuated equilibrium	25
I.F. Hybridization (Hybrid speciation).....	26
I.G. Reinforcement.....	26
I.H. Artificial speciation	27
I.J. Anagenesis	28

I.K. Cladogenesis.....	28
I.L. Phenotype	29
II. Defining some methodological problems	30
II.A. Problem inside: limits of scientific perception	31
II.A.1. <i>Scholarly approach – is objectivity possible?</i>	31
II.A.2. <i>Cultural distance – can modern Archaeologists understand the ancient mind?</i>	33
II.A.3. <i>Split or join? Analyse or Synthesise?</i>	34
II.B. Problem outside: dynamic nature of cultural development. A new definition of culture.....	36
II.B.1. <i>Evolution of culture – constant phenomenon of adaptation – how does it work?</i>	36
II.B.2. <i>Constant change and adaptation – motor of a cultural progress</i>	45
II.B.3. <i>Examples of physical adaptation to extreme environment – human can take a lot</i>	47
II.B.4. <i>Acculturation – factors which decide of its course</i>	50
II.B.5. <i>Acculturation – as seen by the Ancient Peoples</i>	56
III. Ethnicity as a condition – foundations of ethnic identity	61
III. A. Defined and unique name of an ethnic community	63
III.A.1. <i>Human identity – the origin of names of the ancient ethnic groups – what does the name say?</i>	65
III.B. Shared past	80
IV. Ethnicity – redefined	83
IV.A. Understanding ethnicity – Primordialism and Instrumentalism	84
IV.B. Origins of nations – Perennialism and Modernism.....	85

IV.C. Ethnicity – terminology	86
IV.D. Dialect or language.....	86
IV.F. Ethnos as the fourth level of identity	89
IV.G. Is ethnicity a natural or an invented construct?	90
IV.H. Durability of ethnic bonds.....	91
IV.J. Using ethnicity to build a nation – ethos as instrument	92
V. Theory of Biological Primordialism – ethnic group as a common gene-pool	93
V.A. Guerewol festival – a vivid example of the biological nature of ethnos	96
V.B. Ethnie as genetically defined community with cultural manifestation?	102
VI. Ethnogenesis – as development	106
VI.A. Three levels of ethnogenesis – problems with perception of gradual changes	106
VI.B. Is ethnic community a static condition?.....	108
VI.C. Theoretical models of ethnogenesis.....	112
<i>VI.C.1. Description of the Model of Adaptive Ethnogenesis</i>	<i>116</i>
VI.D. Use and misuse of the ethnic tags – who are the ‘proto people’?	117
VI.E. From theory to practice – can we define the level of ethnic development in regard to any ethnic group?.....	121
VII. On the edge – between ethnos and nation	124
VII.A. Nation, nationality, ethnos – definitions and some remarks	126
VII.B. A new way of defining the genesis of ethos and nation.....	131
<i>VII.B.1. Definitions</i>	<i>131</i>

VII.B.2. Number of population.....	132
VII.B.3. Divisibility	132
VII.B.4. Genesis.....	133
VII.B.5. Identity	135
VII.B.6. Ethnogenesis and natiogenesis – biological comparisons.	136
VII.B.7. Timeless and universal vs. typical in specific time and place	138
VII.B.8. Perpetuation	140
VII.B.9. Who controls the process of natiogenesis – the ‘breeders’	141
VIII. Ethnic origins and identification of Israelites	148
VIII.A. Questions and assumptions	153
VIII.B. Name ‘Israel’	159
VIII.B.1. Where and in what connotations did the name ‘Israel’ occur in ancient times.....	159
VIII.B.2. Traditional explanations of the origin of the name	160
VIII.B.3. Proposed Theory – ‘The Original Israel’ as an Egyptian terminus technicus of the local West-Semitic origin	161
VIII.B.4. A relief on a pedestal from Berlin.....	164
VIII.B.5. What city or land named ‘Israel’ do we expect to find in Palestine of the times of Amenhotep II – The Jezreel Valley?	166
VIII.B.6. Jezreel or Israel?.....	167
VIII.B.7. Consequences of the thesis and proposed stages of development of Israel	173
VIII.C. Does the proposed definition of an ethnic community apply in the case of Israel?	175
VIII.D. Models of ethnogenesis and natiogenesis	180
VIII.E. Can Archaeology recognize ethnicity of Israel?	183
VIII.E.1. Ethnic markers that failed – Four room house, collared -rim jars and pits.....	193

<i>VIII.E.2. Culture groups and cultures in Iron Age I Canaan.....</i>	195
<i>VIII.E.3. The idea of kosher food – avoidance of pork consumption as the key behavioural ethnic marker</i>	204
